## Profile Guide & Bar Chart Basics

### Bar Chart Basics

The fi360 bar chart illustrates a percentile breakdown of a peer group. A line is drawn at the 10th, 25th, 50th, 75th and 90th percentiles. The space between the different percentiles indicates the degree of dispersion (spread) and skewness in the data, and identifies outliers.

The investment is plotted using a diamond (◆) at its corresponding percentile (1-100) within the peer group. The closer the investment is to the top of the bar chart, the better it is compared to its peers. On select bar charts, an index is also plotted using a triangle (▲) for additional comparison.

Lastly, for bar charts that represent an fi360 Fiduciary Score® factor, a red line (—) is drawn at the specified threshold. If the investment is above the red line, it meets the specified fi360 Fiduciary Score® criterion and will show a (✓). If the investment falls below the red line, it does NOT meet the specified fi360 Fiduciary Score® criterion and will therefore show a shortfall (X).

### Calculation of fi360 Bar Charts/Rankings

All of the bar charts are created using the following process:

1. For the Fund Profiles, we combine raw Morningstar mutual fund and ETF data for all share classes. The Separate Account and Variable Annuity Profiles simply use raw Morningstar data.
2. We use the Morningstar Categories as our peer groups.
3. We calculate the peer group percentiles (10th, 25th, median, 75th and 90th).
4. We then calculate a percentile ranking (1-100)\* for the investment compared to its peer group and plot the investment (diamond) on the bar chart (peer group) at its corresponding location. If the investment does not have data available for a particular data point, 'N/Av' is shown on the report.

\*The fi360 Fiduciary Score® bar charts can also have a value of 0 which indicates that the fund has passed all of the due diligence criteria and is at the top of its peer group. Visit [fi360.com/fi360-Fiduciary-Score](http://fi360.com/fi360-Fiduciary-Score) for the complete methodology.

### fi360 Fiduciary Score

The fi360 Fiduciary Score® is a peer percentile ranking of an investment against a set of quantitative due diligence criteria selected to reflect prudent fiduciary management. The criteria include total returns, risk-adjusted returns, expenses, and other portfolio statistics. Investments are ranked according to their ability to meet due diligence criteria every calendar quarter. The rank becomes the fi360 Fiduciary Score (Quarter). The fi360 Fiduciary Score (Average) is a one-, three-, five- or ten-year rolling average of an investment's Quarter Score. The fi360 Fiduciary Score represents a suggested course of action and is not intended, nor should it be used, as the sole source of information for reaching an investment decision. Visit [fi360.com/fi360-Fiduciary-Score](http://fi360.com/fi360-Fiduciary-Score) for the complete methodology document.

#### fi360 Fiduciary Score: 0

No fiduciary due diligence shortfalls.

#### fi360 Fiduciary Score: 1–25

The investment may be an appropriate choice for use in a fiduciary account.

#### fi360 Fiduciary Score: 26–50

The investment has noteworthy shortfalls. It may not be an appropriate choice if being considered in a search. However, if already in use, the investment may not need to be replaced.

#### fi360 Fiduciary Score: 51–75

The investment has considerable shortfalls. It may not be an appropriate choice if being considered in a search. However, if already in use, the investment may not need to be replaced.

#### fi360 Fiduciary Score: 76–100

The investment has significant shortfalls and may not be appropriate for use in a fiduciary account. Strongly consider replacing the investment if already in use.

**fi360 Fiduciary Score®**

The fi360 Fiduciary Score is a quantitative evaluation of how well a fund meets a minimum set of due diligence criteria.
