HILTON SAN DIEGO BAYFRONT

G. Michael Phillips

Professor, Director; Chief Scientist

Cali St. University, Northridge; MacroRisk Analytics

G. Michael Phillips began his consulting career as an econometrician and statistician in 1976. Mike's current consulting focus is on data-intensive complex litigation, statistical sampling, and financial and economic modeling. Mike has provided consulting or expert services on over 1,000 engagements and has testified in numerous federal and state courts. An award-winning scholar, he has authored or coauthored more than a dozen books and scholarly monographs, more than a dozen U.S. Patents, over five dozen published academic papers and chapters, and has delivered about 100 conference presentations and addresses throughout the world. Besides his affiliation with PFC, Mike is a Professor of Finance, Financial

Planning, and Insurance at the David Nazarian College of Business and Economics, California State University, Northridge, where he is also the Director of the Center for Financial Planning and Investment. He also serves as Chief Scientist for the Center for Computationally Advanced Statistical Techniques in Pasadena, CA, and is an advisor to MacroGrowth Advisors and Walnut Oak Capital.

Mike serves on the board of Foothill Academy of Vocal Arts, the University of Corporation of CSU Northridge, and Volunteers of America, Los Angeles.

Mike received his B.S. in Mathematics and Economics from Illinois State University and his Ph.D. in Economics from the University of California, San Diego.

Mike is a co-author of books in the *Mortality Factors for Valuation* series, *Beta Estimates for Valuation & Cost of Capital* series, and the *Sample Size Illustrations, Confidence Intervals, & Margins of Error* series published by Walnut Oak Press.
