

## Christopher Carosa

You may recognize Christopher Carosa as Chief Contributing Editor of FiduciaryNews.com, the popular news site that provides essential information, blunt commentary and practical examples for plan sponsors, individual trustees and professional fiduciaries. A prolific writer and engaging speaker, his latest book “Fiduciary Solutions: The Best Opportunity for 401k plan sponsors to monitor plan compliance, plan investments and share the fiduciary burden with experienced professionals” was just published by Pandimensional Solutions. (Yes, it is available on Amazon and there is an ebook version.)

What you might not know about him is this: During three decades in the financial industry, he has created and managed mutual funds that have been ranked among the top ten in the nation, created a trust company that quickly accumulated more than a billion dollars in assets and has advised firms on matters ranging from brokerage to investment management. He knows where all the skeletons are buried. And he’s not afraid to talk.
